Testimonials

"This app has boosted my confidence in speaking English. I love the voice recording feature —being able to hear my mistakes and correct them with the AI's help has made a huge difference."

Author Name

"I use this app to improve my pronunciation for work, and it's been amazing. The AI helps me with both pronunciation and sentence stress. The voice recordings let me track my progress and feel more confident in meetings."

Author Name

"This app makes learning fun and interactive. I get real-time feedback on my pronunciation and rhythm, which helps me sound more natural in conversations. The voice recording feature is super helpful for tracking improvement!"

Frequently Asked Questions

Does the AI teacher help with grammar and vocabulary too?

Yes! The app provides a wide range of vocabulary and sentences for you to study. Once you're familiar with the words, the AI teacher will guide you through practice conversations and offer tips on grammar, pronunciation, and sentence structure.

Can I practice speaking English at my own pace?

Absolutely! The app allows you to study and practice whenever you want.

How can the app help me with English pronunciation?

The app listens to your pronunciation and compares it to native speaker standards. If you make mistakes, the AI will give you specific advice on how to improve, including tips on accent, stress, and rhythm to sound more natural.

Is the app available on both iOS and Android?

Yes! The app is available for download on both iOS and Android devices, so you can use it anytime, anywhere, on the device you prefer.
